On motion of Mr Robins joint rule No 14 was renumbered 13 and all succeeding rules renumbered accordingly.

On motion of Mr Tisdale the joint rules, as amended, were adopted.

Mr Fitch moved to amend rule No 10 of the Senate rules by adding a committee to be known as committee "No 25 Legislative apportionment," the same to consist of one member from each county, which motion prevailed and the Senate rules were so amended.

A recess of thirty minutes was then taken,

Upon reconvening the following message was received from the House.

Mr Tuttle from the committee on rules moved the following amendment to the Senate rules=

Rule 2. The Officers of the Senate shall be elected by aye and nay vote of a majority of all the members of the Senate, And that rule two shall be known as rule three and all succeeding rules of the Senate be renumbered accordingly.

On motion of Mr Robins the Senate stood in recess until 2 o'clock P.M.

Afternoon Session

At 2 o'clock P.M. the Senate reconvened,

President in the chair.

The following message was received from His Excellency the Governor.

Gentlemen of the Senate and House of Representatives:

The Constitution of Wyoming, in defining the duties of the Governor, provides that at the commencement of each session he shall communicate to the Legislature by message, information of the condition of the State and recommend such measures as shall be deemed expedient.

Congress has conferred upon Wyoming State government and it is the knowledge of its citizens for the first time to assume entire control of their own affairs. They are to be congratulated upon so auspicious an occasion; but no less the Union, which has acquired a commonwealth of vast resource and great promise.

To Your honorable body has been delegated the law making power, and it is expected that you will proceed promptly and wisely to enact such legislation as will most successfully complete the organization of the new State government. Of its in Your power to achieve for the First State Legislative Assembly a high and honorable place in the history of Wyoming and the people who have reposed their confidence in your patriotism and ability, believe that you will take advantage of this great opportunity by enacting for their benefit wise and just laws.

United States Senators. Among the first and most important duties after the organization of this assembly will be the election of two United States Senators. In the selection of two citizens of your state for these eminent positions, I trust your deliberations may be harmonious and such as will result in the choice of men who will represent the State with distinguished honor and Ability.

Legislation.

The established precedent of recommending in detail all necessary and desirable legislation will be treated with such brevity as the subject will admit. I must however, first call your attention to the constitution. In this work, adapted by the people will be found besides the fundamental laws of the

State, many suggestions that command your careful consideration. There are besides direct demands, a great number of laws recommended, and permission is given to legislate upon various subjects. The more pressing recommendations you will consider the present session, while those of less importance and more remote may be left for future action.

The laws of Wyoming, embraced in one volume of Revised Statutes of 1887 and the two volumes of session laws of 1888 and 1890, need some revision in order to conform to the change from a territorial condition to that of statehood. On account of the necessarily brief session of the legislature and the great amount of labor to be performed, you will no doubt need the assistance of the various state departments, and I trust that you may receive their hearty co-operation.

In the matter of offices, it will be necessary to change somewhat from the old territorial systems, but taking into consideration the present financial condition of the state and its growing responsibilities, no unnecessary offices should be created or continued and the salaries and emoluments of all public officials should be reduced to the least possible limit that will procure faithfull and efficient service.

Financial

On September 30," 1889, there was in the Treasury, according to the Auditors books, a cash balance of---$ 21,443.30

Receipts from Sept. 30" 1889 to Sept. 30, 1890 - - - - - - - - - 209,601.62

Total 231,044.92

The disbursements from Sept. 30," 1889 to Sept 30, 1890, were - 137,013.05

Leaving a cash balance on hand Sept. 30," 1890, of - - - - - - - - 94,031.87

The Treasurer's statement shows a balance of something over $2,000 in excess of this amount, that is accounted for by warrants issued by the Auditor not yet presented for payment.

The amount of State indebtedness in territorial bonds aggregates $230,000. the principle of which falls due in periods ranging from ten to forty years. There is also a further amount that at present can only be approximated representing the [illegible] of Wyoming during the

present fiscal year, commencing March 31st 1890, and remaining unpaid on account of the failure of the Eleventh Territorial Assembly in 1889 to pass a general appropriation bill. The appropriation bill then under consideration represented a total estimate for twelve months of nearly ——— $55,000.00

Add to this the balance due on appropriations made by the laws of 1890, not included in the general appropriation bill, approximately ——— 11,000.00

To this add fixed charges, interest on bonds etc., falling due the present fiscal year, ——— 14,000.00

The additional expenses until the end of that period for salaries of Judges, Governor and Secretary and increase of salaries of Auditor, Treasurer, and Superintendent of Public Instructions ——— 16000.00

And we have a total of ——— 91,000.00

This it will be observed, disposes of almost the entire amount at present in the treasury.

Where are consider that over $7,000, of the present balance belongs to the stock indemnity fund which can only be paid for diseased stock, killed, that about $2500, is in penitentiary and poor house building funds, and that the other balances can only be applied to specific purposes it will be seen that at the beginning of the fiscal year March 31, 1891 there will not be anything in the treasury outside the forthcoming taxes already levied for 1890.

Unfortunately, the levy for general fund for 1890 is only three mills and the taxes to be collected early in 1891 for the expenses of this coming fiscal year will produce not to exceed $90,000,00

Assuming that the amount raised in each case of special levy will provide for the fixed charges, interest on bonds, etc for which they were intended, we will consider the general fund alone. Deducting the expenses of the present legislature estimated to be $30,000, from $90,000. the tax levy for 1891, there will be on March 31, 1891, a balance of $60,000.

Taking the general appropriation bill on the basis of the one proposed by the last Assembly of $55,000. together with the appropriations provided for by the laws of 1890 of $16000,

and include the increase of salaries for some state officers and entire salaries of others now established, & there and there is an aggregate liability of $92,000. deduct the tax levy from this amount there will be a deficiency of $32,000. When the salaries and expenses of offices already established are paid there will remain no margin out of which to pay newly created offices not for other purposes than those already mentioned and which may be termed the fixed running and contingent state expenses. The legislature may, however, conclude to authorize in part, during the fiscal year commencing '91, of some portion of the tax levied for '91 but which under present laws, are not available until early in '92.

A limited revenue is now derived from insurance companies fees and officers fees, and under the provisions of the new constitution, the state may receive something from interest on public deposits, all of which can go into the general fund.

The University will, doubtless, succeed in obtaining $15,000 from the United States Government for the present year on account of agricultural college appropriation made by Congress, and the state will also receive 5% of the net cash receipts for United States lands sold in Wyoming, but no part of this money enters into the general funds of the state.

The foregoing estimates will vary somewhat. For instance, the keeping and transportation of convicts will henceforth be considerably more than estimated and the average or aggregate sum will be very little to account stated.

On account of the showing made it is to be regretted that the levy of this year for general purposes was not up to the constitutional limit, 8 mills. The total general and special levy of 1891 for territorial purposes amounts to 6 3/10 mills and for the ensuing year about 4½ mills, a very marked reduction.

Already Needed.

The necessity of raising revenue for the ensuing year is perhaps greater than it will be for a number of years for the following reasons:

First. The constitution provides that the

legislature assembly may be six session 60 days while succeeding legislatures are limited to 40 days.

Second. As the World's Columbian Exposition will be held in Chicago in 1893, and the next legislature will not meet until January of that year, it is important that provisions be made during the present session of the legislature assembly if the state is to be represented.

Third. The Act of Congress admitting Wyoming donates 62x,000, acres of land for public buildings and other purposes, to be selected by agents of the state. The value of these lands depends very largely upon the promptness and diligence with which they are selected; and as funds must be provided for land office fees, and expenses incident to their location, there should be no delay. The same observations apply to the lands due to the state in lieu of school sections already disposed of as mineral lands.

In view of the facts as above set forth and the necessity of carrying out the provisions of the constitution, it will be incumbent upon the legislature to exercise the utmost care and economy in all matters of appropriations, at least until the assessed valuation of the state increases. This will soon come. It is better to dispense with some offices, provide moderate salaries for the present, and to avoid new investments and expenses, rather than to be fettered by indebtedness, thereby discouraging immigration and investment of capital within our limits, by resorting to extreme measures for obtaining revenue.

Counties Indebted To State

The Auditor's and Treasurers books, to which I ask your attention, show certain delinquencies from the counties in the state prior to 1890, amounting to $ 13,661,41. That amounts if correct, ought to be collected without delay, or if any portion is incorrect, legislation looking to an adjustment should be provided and the books balanced between the state and counties for back years. All of the counties should take

pride in having their affairs in a solvent and clear condition and as far as possible be relieved from any apparent condition of delinquency.

Balances

There should be a disposition made on the Treasurers and Auditors books of unused balances in various funds, such as will not be needed to cancel accruing indebtedness can be credited to the general fund. It has been the custom for the committee appointed to examine the Auditors and Treasurer's books, to do this at stated intervals.

Certificates Of Indebtedness.

The certificates of indebtedness issued by the Auditor prior to September 30, 1890 on account of the failure of the last legislature to pass the annual appropriation bill, amount to $15,933.07. Of this amount certificates for $9,237.57 have been presented to the Treasurer and endorsed by him "Not paid for want of appropriation." These certificates do not represent the total outstanding liability resulting from the failure to pass an appropriation bill, as some claims have not been presented. The law provides for issuance of certificates of indebtedness in certain cases, but does not seem to compel endorsement, and the Auditor's report exhibits several accounts that do not come under the provisions of the law. For instance, while the contingent fund heretofore allowed the Auditors office has not exceeded $400. per annum, the amount of certificates issued up to the end of the second quarter of the present fiscal year and charged to that account was $2,146. Since that report, there has been an additional issue of $2,400 charged to the same account, making the total amount of certificates for Auditors contingent $4,546, issued in the 6¼ months last past. Some of these certificates are issued for labor performed or supplies furnished prior to the present year and commencing as far back as 1886, notwithstanding the law. Sec. 1704, Rev. Stat., provides that "persons "having claims against the territory shall exhibit the "same, with the evidence in support thereof, to the "Auditor, to be audited, acted and allowed, within one "year after such claims shall occur, and not afterwards."

Official Reports

With this message are transmitted the reports for the year ending September 30, 1890, of the various territorial or state officers.

The Treasurers report exhibits a clear statement of the receipts disbursments and balances, and the object for which public money has been expended.

The Auditors report contains information regarding our finances and valuation of railroads, telegraph and other property properly classified

No report for the Ex-Officio Insurance Commissioner has been received.

The State Engineer regrets the failure of the last legislature to make appropriations to carry on his work and the consequent embarrassment to the progress of irrigation in Wyoming. The amount expended out of private funds is set forth in the Engineers report to which your early attention is directed. The Government has manifested great interest in the subject of irrigation during the the last year. and frequent request from Washington for information have been received by various officers of the State.

In the opinion of the Engineer, the expense of recording water statements and other irrigation work should be lessened, and better regulations adopted for the adjudication of water rights. The United States arid lands, he thinks, shall be transferred to the state for irrigation and reclamation. There are many reasons to support this proposition and I trust the legislature will embody them in a strong memorial to Congress on the subject, to the end that such lands may be transferred to the state.

The Geologist presents, in a report the result of his work for the last year. He believes that the offices of Geologist and Inspector of Mines should not be held by the same person. If the two offices are merged into one, a deputy will be necessary. A further recommendation is made that a chemical assistant be provided as soon as the state can afford it, allowing fees for analyses and other scientific work. After

the first one or two years, the fees ought to be sufficient to pay the salary of the chemist.

The Coal Inspector in presenting his annual report, makes reference to section 1668 of the Revised Statutes, and cites its application to owners of coal mines, who, under its provisions need not report to the Inspector until January 1st, while the Coal Inspector is called to report to the Governor three months before that time. This error should be corrected. The Inspector believes the offices of Geologist and Coal Mining Inspector are incompatable, and that one man can not successfully hold both offices.

The State Veterinarian treats of various interesting subjects concerning live stock. He reports fewer animals lost from eating loco than in 1889, and believes the total to be less than one hundred head. A few horses have died of cerebro spinal and spinal meningitis. This disease yields to treatment, and the aggregate loss, when the number of horses in Wyoming is considered is very inconsiderable. No other diseases of live stock are reported. In the matter of quarantine and the introduction of southern cattle, out of some 90,000 head of Texas cattle brought to Wyoming from south of the 37th parallel, no outbreak of Texas fever has resulted. The Veterinarian recommends the retention of protective regulations by proclamation as cases may require.

The Live Stock Commission have not reported.

The Commissioners of Pharmacy have not reported.

The Stenographer calls attention to the duties of that office, the emoluments allowed, the increasing number of counties and courts, and submits, including a copy of the present laws governing the office Stenographer, and some general observations by eminent jurists on the utility of stenography in the courts.

The Attorney General's report is presented containing information concerning that office.

The State Librarian has filed a full account of the transactions in that department, and also of the Superintendent of Public Instruction. More shelving is recommend for the library rooms, many of the books being stored in the third

floor of the Capitol, where they are not seen or used. While considering this office your attention is respectfully directed to the necessity of legislation defining the duties of State Superintendant of Public Instruction, of having a librarian in attendance at the law library, and the duties connected with the various land grants of the State.

The Fish Commissioner has a full report on the condition of his department, with recommendations for further legislature and management. He suggests that there be a special car provided for the safe transportation of young fish, that a portion of the land now owned by said, and that a branch hatchery be established at Sundance. The account of eggs taken from the Wyoming hatchery it is said to be exceeded only by one or two of the oldest hatcheries in the United States

The report of the Poor Asylum Building Commission shows a balance in that fund over all liabilities, of $321,39 the Poor farm is estimated to be worth $3000, being an increase of $2,000, over the amount paid by the territory. The state has no permanent class of paupers, and the farm is needed for $300,00 per annum.

The Board of Trustees for the Deaf and Dumb Institute present a report. Under present laws, there being an insufficient number of this unfortunate class to open a school, the trustees have rented out the building in order to secure it proper care. The Board ask a small appropriation to pay for insurance and suggest a further appropriation for opening and maintaining a school, believing there are pupils enough to justify it. Certain amendments to existing laws are also recommended.

No report has yet been received from the Board of Penitentiary Building Commissioners.

The regular Board of Penitentiary Commissioners have made their report, showing the number of Wyoming convicts at Illinois State

Penitentiary on September 30" 1890 to be 81

Insane convicts at Jacksonville, Ills 2

Juvinile Delinquents at Golden Colo. - - - - - - - - - - 8.
Convict at Buffalo, Johnson County - - - - - - - - - - 1
Total - 92

The Board recommend that Illinois State Penitentiary be continued as the Prison for Wyoming state convicts until at least the expiration of the present contracts which terminates on January 19, 1893, about the time the Second State Legislature will convene. An appropriation of $30,000 for the ensuing two years for transportation of convicts and juvinile delinquents, and a contingent fund of $2500, for the use of the Commissioners is asked for.

The Trustees for the University, in a very full report, note the progress of the institution and recommend an expenditure in the next two years of $2,000. in addition to the regular 1/2 mill tax annually levied. The Board also suggest the necessity of a dormitory and boarding hall. A desire is expressed for the United States appropriation, payable annually for agricultural and mechanical colleges, and it is confidently claimed that the University can provide the necessary instruction to earn and entitle it to the full amount of appropriations granted by the United States.

The Board of Visitors of the University were not requested to make a report.

The Commissioner of the Insane Asylum mention a deficit in their finances, at the commencement of the present fiscal year, of $ 718.95; and an indebtedness due the institution from eight different counties, amounting to $3.026,04.

The number of patients in the Asylum at the end of the last quarter was 23, 14, and 9. females. To this number will shortly be added the insane of Albany County; also one or two insane convicts committed by the Board Penitentiary Commissioners

The entire number of insane belonging to the State is believed to be about 40, a very small percentage compared with other states. The Superintendent asks for an appropriation which to fence the farm of 160 acres, stock it with necessary work horses, milch cows and farming utensils and to pipe an-

to the asylums

Undoubtedly these items would add much to the utility of the asylum and reduce the cost of maintaining its inmates. Since estimates submitted by the Superintendent the cost is now nearly as low as has heretofore been charged in asylums, and when transportation is considered it is as economical to care for patients within the state as to send them away when all the state patients are provided for in the asylums the cost per diem for each, will be considerably reduced

The suggestion is made that the Insane Asylum shall be support by the state rather than by having each county pay for the care of its own patients. I can not approve of this at present because, with constitutional restrictions limiting taxation & the responsibilities of the state, it is impractable to support another institution, the expense of which must be borne from the ordinary state income. It is as fair for each county to provide for its indigent income as for its poor and paupers, and its costs the tax payer no more in his county tax than if it were a state tax. There is, at present, no regularly established procedure for adjudging pauper insane, or restricting the expenses of taking them to the asylums. The counties have better facilities for controling such contingent expenses than the state. with counsels duly tried and sentenced by the court, the matter is quite different

The Capitol Commissioners report on the general condition of the Capitol building and give a statement of the amount of money received for rentals from Laramie County and the United States. They recommend the early planting of shade trees and a permanent introduction of pipes and wires for lighting the building with gas and electricity; before any work is ~~com~~menced on grounds or lawns. The present temporary arrangements for lighting are very unsatisfactory and accidents are liable to occur. Your attention is invited to their suggestions, with the hope that they may be adopted,

STATE OF WYOMING.

Laramie Penitentiary

Under the terms Wyoming's admission bill, the U.S. Penitentiary at Laramie becomes the property of the state. It is in charge of the U.S. Marshal, and the prisoners, in its number, are United States convicts. The matter of receiving and caring penitentiary convicts receive your attention.

Selection of State School Lands

By Act of Congress, the state is allowed to select in such manner as the legislature may provide, with the approval of the Secretary of the Interior, like lands in place of any sections or portions of sections of school lands numbered 16 and 36 in every Township that have been sold or otherwise disposed of by or under authority of any Act of Congress. — These indemnity lands to be taken in legal subdivisions of not less than one quarter section and as contiguous as may be to the sections in lieu of which the selection is taken. Provision ought to be made during the present session for the early selection of these lands, because their value depends largely upon the skill and promptness with which they are located and before the best lands have all been settled upon. Furthermore, the lands could be rented and an immediate revenue derived therefrom for public school purposes. In making appropriations provisions has to be made for U.S. land office fees, which must be paid in cash at time of entry.

Donated Lands.

The law admitting Wyoming gives to the state 62,000 acres, in addition to the 72 sections already selected for the University, from the unappropriated public lands, to be selected and located in legal subdivisions of not less than ¼ sections. It will probably not be practicable to divide or allot to the different localities or institutions, at this session, but their early selection should be made for reasons given regarding school lands.

Lands For Fish Hatchery

Pursuant to the Act of Congress, approved May 28th 1888, entitled "An act granting certain lands in the Territory of Wyoming for public purposes," authorizing the

Governor to select 640 acres of land for the State Hatchery at Laramie, the Executive filed in the Cheyenne Land Office November 4th 1890, on Section 26, Township 16 N. R. 73, W, if the entry is approved, title will be vested in the State in due time through the Interior Department. A small appropriation will be necessary Expenses, for land office and attorneys fees.

Agricultural College Fund

A recent communication from the Honorable Secretary of the Interior called attention to the Act of Congress approved August 3rd 1890, entitled "An Act to supply a portion of the proceeds of the public lands to the more complete endowment and support of the colleges for the benefit of agriculture and the mechanic arts established under the provisions of an Act of Congress, approved July 2nd 1862." The act apportions to each State and territory, after complying with certain conditions, the sum of $15,000 for the year ending 1890; $16,000. for the year ending 1891, and an annual increase each year by $1,000, until it shall reach $25,000 per annum, and appropriates the later sum for each year thereafter; all to be applied to the support of a college of agriculture and mechanical arts, providing no distinction of race or color is made in the admission of students thereto, and that the state shall assent to the law and purposes of said grant. The installments are to be paid, in all cases, to the treasurer.

I have applied, on the part of Wyoming, for $15,000, to be paid into treasury for the use of the Wyoming University. The attention of your honorable body is called to the law on this subject and the appropriation contained therein, with the expectation that you will make such disposition in this matter as your judgment dictates. It may be advisable not to create a new institution, which will draw appropriations direct from the State treasury for erection, establishment maintenance, until we shall have recovered from extraordinary expenses made necessary at this time by causes mentioned elsewhere in this message.

The requirements that the Legislature must assent to the provisions of the United States law, in order for the

state. To avail itself of this fund, is respectfully called to your notice.

Sale Of Certain School Lands.

It is desirable that the State Board of Land Commissioners be authorized in some instances to dispose of lands donated to the state. There are certain sections contiguous to growing towns and cities that ought to be sold, otherwise they are likely to retard the proper development of many of the larger municipalities. Already numerous parties have settled on these lands, and if they can be sold valuable improvements will be made. The greater portion of the lands donated to the state, however, should remain, unsold as the general increase in the wealth and population of the state will enhance their valuation.

School Laws

The constitution authorizes the legislature to provide for the establishment and maintenance of a complete and uniform system of public instruction, embracing free elementary schools, a university and such other institutions as may be necessary. Our present school laws are inadequate and call for a thorough revision. It is to be hoped that this subject will receive the most careful and intelligent consideration. The attention of the legislature has on several occasions been called to the importance of having better school laws, but they have remained practically the same.

The State Library.

The state is possessed of a valuable law library of over ten thousand volumes, which is provided with ample accomodations in the new capitol building, additions are constantly being made to its shelves in the way of law reports out of the liberal appropriations that have been made from time to time, but no appropriation has ever been made for the purchase of books of a miscellaneous character. There are many books, such as encyclopedias, standard histories, scientific and political works and valuable text books, that would add greatly to the usefulness of the library.

I respectfully recommend that a suitable allowance be made for this purpose from the first available fund,

County Libraries.

The Ninth Legislative Assembly enacted an most beneficial law perhaps than that providing for the maintenance and support of free public libraries by official vote at each of the county seats, there are however several amendments that should be made in order to make the law more effective. Under its provisions the County Commissioners are authorized to appoint three trustees, who have direction of the library and its funds; but no term of office is fixed, so that the directors can hold their office for an indefinite length of time. If the law is changed, allowing the commissioners to appoint one trustee every two years fixing the first terms of office two, four and six years respectfully, there would always be at least one member of the board familiar with the office. This position, like many others, is one that women have a peculiar fitness to fill acceptably. There should always be provision made looking to the permanent location of the libraries, in suitable and convenient quarters.

Investment of State Funds

Under the Act admitting Wyoming five per cent, of the net cash receipts for United States lands sold in Wyoming are donated to the state, and this amount will be augmented from time to time by the sale of state lands, the funds, thus accruing the interest of which only can be expended, must be invested for the benefit of schools. In order to effect the safest possible investment, secure a fair percentage of interest, and keep the money within the state, I recommend that proper legislation be enacted to loan this fund on bond or otherwise to counties cities or school districts such as may desire to borrow for the purpose of Wyoming; particularly for erecting necessary school buildings.

Taxes Twice A Year

The Eleventh Territorial Legislative Assembly, provided for the payment of taxes, in three annual installments, and that the law should take effect January 1st 1891, The admission of Wyoming and adoption of the constitution before the stipulated date probably invalidates this law; but, as there is difference of

opinion it would be well to clear up any uncertainty by proper legislation. Should you adopt the system of payments in October and April, it will be necessary to make some arrangements for the interest on state funds payable January 1st, as each year, the April payment of semi-annual taxes would come three months after the regular January payment of interest.

Militia.

The first Regiment of Wyoming National Guards has now four organized and equipped companies, A fifth has been enlisted and an election of officers and muster already ordered. Companies A. at Laramie. B. at Cheyenne; D. at Buffalo; E. at Rock Springs are fully organized and Company E. at Green River, is all ready recruited. A Regimental Major and Adjutant have been commissioned and it hoped one or more new companies will be enlisted before the end of the year. Ordinance, uniforms and equipments are furnish by the National Government, and the only funds to be borne by the state or militia will be for armories, encampment and general contingent funds.

The state is indebted to Major Frank A Stitzer in a small amount for money advanced for "encampment" funds.

Chicago Anti-Coercion

The constitution has provided a way to govern and limit further divisions of the several counties, but provides no method for consolidating of two or more counties into one or the division a county, and annexation of a part to each of two or more of the other counties. While this may not be desired, for many years it is not improbable and should be provided for by statute, I commend the subject to your attention.

Elections

The Eleventh Legislative Assembly of the Territory adopted, with slight changes, what is known as the Australian system of voting. After a trial in the first state election, the law is universally commended as a whole, And with

slight modifications and amendments, which will doubtless be presented to you for adoption, the State will have a system as perfect, perhaps, as that in use in any country.

Apportionment.

It will be your duty to re-apportion the State under the terms of the constitution, I trust there will be an equal and fair division and that concessions in the number of members will be made by districts having more than their just proportion, if any there be -- rather than to unduly increase the whole number of members and legislative expenses accordingly.

Pardons.

Conforming to the constitution, I have to communicate to you pardons issued as follows:--

Edward J Lynn: Crime, manslaughter; sentenced four years in Joliet at October term of district court; pardon issued Oct 30" 1890; recommended for pardon, exceptionally good conduct during confinement with only one month to serve.

Harry Thomas Hall: (colored). Crime, manslaughter; sentenced four years in county jail of Johnson County; pardon issued Oct 30" 1890, on petition of Judge M. L. Sanford and others.

Liquor To Minors.

The law prohibiting the sale of liquor to minors or to habitual drunkards was inadvertantly repealed by the Crimes Act of 1890. It should be revived and made more effective.

Fire In Mines.

Events of 1889 and 1890 have called the attention to the necessity of legislation to prevent and to punish the willful burning setting fire to mines or mining building and property.

Grand Jury.

The constitution provides that the legislature may change, regulate or abolish the grand jury system, without recommending the entire abolition of grand juries. I suggest that the number of jurors, their duties, and the court at which

doubtless be greatly reduced with safety to that branch of public service and not embarass the the administration of justice.

Chattel Mortgages.

It has been suggested that the recording of chattel mortgages and their foreclosure entails an undue expense, and that a more simple method would accomplish the desired end, a shorter form of mortgage should be provided, which would insure all safeguards and very much reduce labor and expense in creating and recording.

Worlds Columbian Exposition,

This exposition will be held in Chicago in 1893, and, as the next legislature assembly will not meet until year, it is imperative, if the state is to be represented, that you provide by appropriation during the present session for the expenses of Wyoming exhibit, It is to be regretted that the exposition occur so soon after the States admission, when our revenues are limited. We are almost compelled to be represented there in order to keep in the front rank with other progressive communities, As propriations could be less for the coming year than the year following so that but little money will be taken from the treasury until after present necessities have been provided for; The commissioners or agents authorized to disburse the funds, knowing that a more liberal appropriation was made for the second year, would be able to conduct active operations.

We can adopt and forward to Congress a memorial praying for a commensurate showing on the part of the Government of the wonder of the Yellowstone National Park, As the park is in Wyoming it should be under the auspices, or connected with the exhibit made by this state,

Your attention is invited to the reports of States Engineer and Geologist on this subject, also a letter, to the latter written by Honorable Henry G. Hay, one of the Exposition Commissioners of Wyoming.

Public Examiner

The constitution permits the appointment of

a State Examiner an office originating in Minnesota but which has since found favor in several States. In the first mentioned state the Public Examiner has supervisory power over banks, public institutions, county treasurers, and other offices by means of which a uniform system of accounting is enforced for all public funds, and safety is insured.

Early Appropriations

Among the matters for legislation, requiring your first attention, are appropriations to cover the indebtedness accrued and the commencement of the present fiscal year. Because of the failure to make appropriations by the last legislature -- also the proper appropriations for your immediate contingent legislative expenses. The funds are in the treasury and as many accounts are over due early action is imperatively demanded.

Conclusion.

In conclusion I desire to extend thanks to territorial and state officers for information furnished me, and to request as a further favor that all will address themselves to the work of assisting this legislature during its present session, by the preparation and presentation of such matter as may be necessary for our desired success.

I have endeavored to lay before you such recommendations and suggestions as occur to me to be essential at this time to the proper legislation and government of the state. Whatever subjects have been omitted your own observation and care will supplement.

I desire to co-operate with the legislature in all measures beneficial to the state, and to afford every assistance in my power,

Francis E. Warren

Hon President of the Senate

Sir

Mr Robinson from the committee appointed to examine the accounts and records of the Auditor, presented the following report:

State of Wyoming }
County of Laramie, } ss.

To the Honorable President of the State Senate

Cheyenne Wyoming

Sir:

We the undersigned, being a majority of the Committee selected in accordance with law to examine the accounts of M.N. Grant, late Auditor, and having fulfilled the duties required of us, do make the following report.

We find that for the entries appearing in the books of the Auditor no charges against the State. There are vouchers on file in said office presenting itemized accounts of claims against the State, and in one instance, it being a claim against the State for the sum of Two Hundred and Forty Dollars for furniture alleged to have been sold by the Deputy Auditor, C.W. Stewart, to M.N. Grant as Auditor We

find that the bill is not properly itemized, and therefore recommend that your Honorable Body will cause the same to be investigated.

We also find certificates of indebtedness having been issued against the State by the Auditor in his own favor, as well as in the favor of his deputy C. H. Stewart and charged on the books against the Territorial contingent fund due the Auditor for the last six months amounting to over Four Thousand Dollars.

It not being our province to pass upon the legality of the actions of the Auditor, and the certificates so issued, we would therefore recommend that your Honorable Body would appoint an investigating committee, and that all the accounts now appearing on file in the Auditors office against the State of Wyoming and for which certificates of indebtedness have been issued by H. A. Grant while Auditor, be carefully investigated before any appropriation may be made for the payment of the same

Dated at Cheyenne, Wyoming, this 18th day of November, A.D 1890

Respectfully submitted

Cheyenne Wyo.

December 9. 1890.

Honorable President
of the Senate.
Sir:

I have the honor to transmit herewith for consideration by your honorable body and return. the accompanying report of the Board of Live Stock Commissioners this day filed in this office under Section 49 of Chapter 53 of the Session Laws of Wyoming of 1890.

Very Respectfully
Amos W. Barber.
Acting Governor.

Enclosure.

The President referred the report of the Board of Live Stock Commissioners to Committee No. 6.

By unanimous consent the following report was received:

Report
of
Special Auditing Committee.

To the Honorable
President of the Senate and
Speaker of the House of Representatives
Gentlemen:

We. the majority of your committee appointed in accordance with Senate Joint Resolution ~~number two~~ to enquire into the accounts of the office of the Auditor of the Territory of Wyoming and the State of Wyoming since the 31st day of March 1890. beg leave to report as follows:

We find that the late Auditor of the Territory of Wyoming M. A. Grant and C. N. Burdick Auditor of the State of Wyoming have since the 31st day of March A. D. 1890. issued certificates of indebtedness as provided by Section 1711 of the Revised Statutes of Wyoming on account of vouchers drawn and sworne to in accordance with law. the issuing of which certificates of indebtedness became necessary owing to the failure of the eleventh Legislative Assembly of the Territory of Wyoming to make necessary appropriations for the purpose of paying salaries of the Territorial officers and other expenses of the Territorial Government authorized by law. We find that said certificates of indebtedness with certain exceptions to be hereinafter enumerated, were drawn on account of properly attested vouchers now on file in the office of Auditor of State. and that said certificates of indebtedness have, with the exceptions above referred to, when drawn as certificates of indebtedness for the salaries of the territorial and state officers, in no case exceeded the amounts of such salaries as established by law, and the certificates drawn to represent indebtedness for contingent and other necessary expenses of the territorial and State Government have in no case, except those to be hereinafter enumerated, exceeded the amounts appropriated and provided by the ~~third~~ Legislative Assembly of Wyoming for a like period of time, and for indebtedness necessary to the proper maintenance of the State and Territorial Government. The certificates above referred to appearing to your committee to be clearly unauthorized by law or in the line of expenditures not having the sanction of precedence or as follows;

Certificate number 97, in favor of C. N. Stewart dated July 7th 1890. (2d salary for services of deputy Auditor and ex officio insurance commissioner for the quarter ending June 30th 1890.) amounting to $300.00. Your committee find no authority in the law for the payment of a deputy Auditor. while it has been the custom of one at least of the state officers to pay for necessary clerical help out of the contingent fund of his office. This amount so paid has never, together with the other

contingent expenses of the offices exceded the amount of the appropriation for said contingent expenses, the above mentioned certificate appropriates the sum of $100.00 per month for the services of deputy Auditor, while the last appropriation for all contingent expenses of the office were only $800.00 for two years. Furthermore, Chapter 64. Section 1. Session Laws of 1888. provides that the Territorial Auditor shall be ex officio Insurance Commissioner, and allowed certain fees in connection therewith, No provision is made for any additional salary. Certificate number 61. 62 and 63. drawn in favor of C. N. Stewart amounting to $444.50. The vouchers for in number on which these certificates were drawn contain the following items, viz;

To box rent for yr. ending July 1. 90	$ 1.50
To Fifty 100 cent postage Stamps,	1.00
To Post-office box rent yr ending Sept 30-90	1.00
Bill of furniture in Auditors Office,	240.50
To salaries for services as deputy Auditor for July and August, 1890	200.00
Total	$444.50

The above vouchers are find fastened together with a notation as to the number of the certificates which were drawn to represent indebtedness accruing by reason of same on the back of one of the vouchers. The above certificate are for the following amounts.

Certificate 61	$ 50.00
Certificate 62	60.00
Certificate 63	334.50

Your Committee believe the above mentioned certificate were not issued as authorized by law. For the following reasons; First, Section 1711 of the Revised Statutes relating to the issuance of certificates of indebtedness recites "In all cases where the law recognizes a claim for money against the territory and no appropriation shall be made by law to pay the same the Auditor shall Audit and adjust the same and give the claimant a certificate of the amount thereof." There were not drawn for the account of any one or more of the vouchers which they purport to represent. Though the amount of the

equals the amount of the five above enumerated vouchers. Second. Section 1733 of the Revised Statutes recites "And the Territorial Auditor shall in no case draw a warrant on the Territorial Treasurer except on account itemized and each item dated" We find among the vouchers above enumerated one Aug. 30th 1890 of sundry items of furniture now in the Auditors Office which voucher has not been itemized within the meaning of the law. The failure to price each item invalidating the voucher in the opinion of your Committee. Third, the voucher for $200.00 included in the above mentioned package of vouchers as follows: To salary for services for deputy Auditor for July and August 1890 we find no authority for the payment of the same in law. The remaining vouchers above referred to amounting to $4.60 for postage and postoffice rent are manifestly just claims against the State.

Certificate number 65 issued to C. M. Stewart dated March 1st 1890. "To salary for services for deputy Auditor and ex officio Insurance Commissioner of the Territory of Wyoming, from the 31st of March 1888 to March 31st 1890. Amounting to $1200.3" Your committee respectfully submits that in their opinion this certificate is not a just claim against the State for the following reasons viz: First: as above stated we find no provision in the law for the payment of the salary of deputy Auditor ex officio Insurance Commissioner. Except that in case of the later office certain fees are allowed. Second. That the period of time covered by the said voucher for which certificates were drawn, is that covered by the appropriations made by the 10th Legislative Assembly expressly providing for the salary and contingent expenses of the Auditors Office which amount so appropriated was drawn and used during the period named.

Certificate No 72 in favor D. W. Gill "To salary to services for deputy Auditor for September 1890." $100.00.
To cash paid for box rent, $7.50

Your committee find no authority in law for

the Payment the $100.00 aforesaid, and for the reasons before stated in regard to salary for deputy Auditor. The sum of $150 for cash paid for box rent is in our opinion a just claim against the State, Certificate 103, issued to D. W. Bell, "To services as deputy Auditor from October 1st to November 7th, 1890 ---------- $122,20

6 Quires of legal cap." dated November 7th 90,"

Your Committee respectfully submitt that in their opinion the item of $122.20 is not a lawful claim against the State for the reasons before stated in regard to the salary of deputy Auditor; That the claim of Two Dollar and fifty cents for five quires of legal cap is a just claim against the State, Certificate number 104 in favor of M. A. Grant, dated October 3rd 1890." To Amount paid out for clerical help from March 31st 1886 to April 1st 1890, $2400.00,"

Your committee respectfully submitt that in their opinion this certificate is not a lawful claim against the State of Wyoming, for the reason that the period of time for which said indebtedness for services is claimed to have accrued, was the same period of time for which the 9th and 10th Legislative Assemblys of the Territory of Wyoming appropriated moneys for the payment of all salaries and necessary contingent expenses of the Auditors Office, and the amounts of said appropriations were used and drawn during the period for which said appropriations were made.

Your Committee having carefully examined the above enumerated certificates of indebtedness, numbers 37, 61, 62, 63, 66, 72, 102 and 104, beg leave to report that we find no provisions in law authorizing the payment of same except, however, that the several items contained in the above mentioned vouchers which your committee have enumerated as lawful claims against the State of Wyoming, should be paid on presentation of proper vouchers covering same.

Your Committee recommends that deficiency appropriation of $1000,00 be made to cover the period from March 31st A.D. 1890, to March 31st A.D. 1891, on account of which the Auditor shall be authorized to issue warrant for clerical help since March 31st 1890 on and

drawn and executed vouchers, not to exceed $5,000 per month for said clerical help, and for any other necessary contingent expenses which may have accrued during the period mentioned. Your committee recommend that a contingent fund of not less than $1200.00 per year be set aside for the use of the Auditor's Office. The volume of business transacted in said office can not be properly performed ~~joint~~ a less contingent fund. The business of various boards of which the State Auditor is Secretary, as well as the ordinary work of the office necessitates a considerable outlay of money for Stationary, and at the same time the business of the office can not be properly attended to for want of proper stationary, and the office is sadly in need of furniture and fixtures necessary for the carrying on of the business transacted therein, and in keeping with the building in which they are situated.

Respectfully Submitted

The Senate then stood in recess for 20 minutes.

Upon reconvening, unanimous consent having been given the following minority report was received;

To The Honorable,

The Senate and House of Representatives of the State of Wyoming: The undersign who was appointed by the Honorable Speaker of the House as a member of the Committe to investigate the accounts of Hon. M. A. Grant, late Auditor of Wyoming, and to report the same to you, submits this minority report viz:-

1. The committe has made such investigation and this

STATE OF WYOMING.

member of the Committee concurs with the majority in the approval of claims made by them.

2. This member of the committee also approves of the issue of the certificates of indebtedness rejected by the other members of the committee, and recommends that an appropriation be made to pay the same in full, and in this connection calls your attention to the following facts:

1. The appropriations made heretofore of $1200.00 per annum for salary and $400.00 per annum for contingent expenses has not been sufficient to provide a fair compensation for the actual work done, and to procure suitable offices, heat, light, furniture and other necessary supplies for the conduct of the State Auditors Office,

2. That on the 8th day of March 1888 a law was enacted consolidating the department of insurance with the Auditor. Prior to the consolidation, the insurance commissioner received all the fees from his department, as compensation, and an appropriation of $3000 was made for contingent expenses. By the law of consolidation the fees were principly converted into the treasury and no contingent appropriation was made. While Mr Grant performed the duties of the department of insurance he has paid to the treasurer, according to the treasurers receipts, the sum of $3830.00 as fees received from the insurance department

In this connection are cited Chapter 64, Laws of 1888. Laws of Congress affecting Territorial Government 21. class of 21. section on pages 38 and 89 Revised Statutes.

3. Appended hereto is a copy of the claim for furniture. The furniture can be seen in the office and vault of the Auditor, Section 1692 of the Revised Statutes provides for the furniture to be purchased at public expense, Furniture seems to me to be necessary in the office to enable the public business to be transacted and neither the items of furniture stated in the bill nor the amount paid seems to me to be extravagant.

4. The Attorney General appeared against the territory in a suit involving not only the $70.00 at issue but the principle of paying all appropriations made for the contingent expense for the several officials, amounting to many thousands of dollars and the Auditor would have become personally liable if he had ~~not defended~~

the case. It was in this defence that the certificate for attorneys fee was issued.

5. The work of the Auditors office has grown in the general growth of Wyoming, the creation of new offices and of new counties, and additional duties have been added at various times, to that of auditing claims and supervising revenue, until now the Auditor, beside these duties and the charge of the department of insurance is ex-number of several boards, such as Board of Equalization and assessment. School lands. University lands. Capitol Building Commission. etc. all of which add new duties and responsibilities as well as a vast amount of work.

6. The law provides for the appointment of a Deputy Auditor and ex officio insurance commissioner and the proper conduct of the business of the office requires this help. Mr Grant appointed Mr Stewart as such deputy from March 31st 1886. to August 31st 1890. and Mr Gill in the same capacity from August 31st 1890 to November 8th 1890.

Under this appointment Mr Stewart provided an office, light, and heat from March 31st 1886 to August 1889; the furniture used in the office from March 31 1886 to August 31. 1890 and he devoted his whole time to the duties of the office from the date the department of insurance was added, something over two and one half years. Mr Gill did similar work from the date of his appointment, that for the office, heat. lights, and furniture provided and for the service of Mr Grant and his deputies performed the appropriations of $1200.00 per annum for salary, and $400.00 per annum for contingent was not anything like a fair compensation, or in keeping with the appropriations made for salaries and contingents for the other various State Officers, when the services performed and the responsibilities, are considered

7. Mr Grant has drawn his salary since March 31. 1890 at the rate of $1000.00 per annum instead of $1200.00, or instead of $2000.00. since the constitution was adopted

Believing that Mr Grant should be reimbursed for -

That part of his salary advanced to his deputy. That the deputies should recive a fair compensation for their services actually performed by them. and that the furniture and Attorneys fees were necessary and not extravagant. I recommend that an early appropriation be made for the payment of each certificate of indebtedness issued by Mr Grant.

Very Respectfully Submitted by
A. L. Sutherland.

To the Honorable
President of the Senate and
Speaker of the House of Representatives.
Gentlemen.

Your committee appointed to select a design for the Great Seal of the State of Wyoming beg leave to submit the enclosed designs drawn by the different mentioned below:

No. 1. designed by Mr H. E. Buchner.
" 2 " " Mrs J Justice
" 3 " " Mrs E. W. Bond.
" 4 " " Mrs E. B. Rood.
" 5 " " Mr J. Bond.

We desire to call attention to the description of the different designs as presented

rush tanks and building symbolizing the oil interests of the State. On the left is a mountain range with wagon road leading thereon. There are mills and reduction works shown, prospect holes in mountain side with ore dumps, &c, &c. This landscape which is emblematic of the chief interests of the State, such as the cattle ranching, farming, oil and mining industries is surrounded by a ribbon like scroll reaching from both sides and leading to the center and upholding the platform of the State of Wyoming - "Equal Rights" - The figure of a woman standing erect thereon, holding in her left hand a shield, her right arm uplifted, the broken chain with which her six were bound hanging in pieces from her bare arm, and her finger pointing heavenward to a star - "44". To the left is the date of the organization of the territory, 1869, and to the right that of the admission of the State, 1890.

No. 2. by Mrs J Jenkins, represents letter "W" in large size covering the entire space, with star 44 on center of letter. Scale of justice and school house above. Plow and wheat sheaf to the left, and several cattle lying down on the. A miner with pick to the center below. No. 3. by Mrs Dana, represents a shield in colors red, white and blue. The upper part thereof is a mountainous scene with the "Esto Perpetua" over the center, and the dates 1868-1890 in either corner; this part is is blue. The outer stripe is white bearing the words "Wyoming" and 44 little stars thereon. The lower part is red. Has the word "Equality" across it.

No 4. by Mrs E. B. Ross, representing a center with the number "44" thereon, surrounded by stripes, with a plait - "Progress" - on left, and "Equal Rights" below encircled by 44 little stars; the whole forming the center of a shield on the upper corners of which are two bull heads, and in the center thereof a pair of elk horns with the date "A.D. 1890" in the lower point of shield are the letters "Wyo" in monogram; the whole being encircled by a rope.

No. 5 by Mr Bond. A large circle bearing

the words "Great Seal" on top and "State of Wyoming" below. The centre represents a woman standing on the globe of the earth whereon the State of Wyoming is represented holding in her right hand a burning lamp her left hand resting on a shield at her feet with the motto "Political Equality for all" encircling the top.

Your committee beg leave to recommend the adoption of design No. 1 by Mr Buchner it being the one most suitable emblematic as it is of many of our industries &c. together with the dates and the mottos. J. L. Russell
Chairman

The following communication was received from Hon Ed Ellery the Acting Governor.

Executive Department
State of Wyoming

Cheyenne, Wyo, Jan. 2, 1891,

Hon President of the Senate

Sir,

I have the honor to return herewith without my approval Senate Enrolled Act No. 11, entitled "An act providing that certain...

formated bodies and societies may acquire, take, hold, lease and convey property not exceeding in value ten thousand dollars and may sue and be sued, and to amend and reenact Sections 596 and 596 and to repeal Sections 597, 598 and 599 of the Revised Statutes in conformity therewith."

A very serious objection appears to this act in section 3. which repeals section 597, 598 and 599 of the Revised Statutes. The sections proposed to be repealed provide among other things, that certain societies therein named, and not mentioned in the first section of the Chapter (Sec 589) may incorporate. A repeal of these sections will prevent such incorporation; limiting this privilege to societies named in Section 589, and thus depriving the Independent Order of Odd Fellows, Knights of Pythias, and all other secret, benevolent and benevolent orders or societies and Knights of Labor of rights and privileges which they now enjoy under the present laws. Sections 597, 598 and 599 reach beyond the sections amended and reenacted by this act, and reach as well the sections providing for incorporation. Their repeal would work an unwarranted discrimination and injustice.

Very Respectfully

Executive Department
State of Wyoming

Cheyenne, Wyo, Jan, 3, 1891.

Hon President of the Senate
Sir.

I have the honor to return herewith without my ~~approval~~ Senate

Enrolled Act No 12. "An act to amend and reenact sections eighty two and eighty five of Chapter five of the Revised Statutes of Wyoming relating to chattel mortgages"

Aside from the general and grave objections which arises against so informal a mode of foreclosing a class of liens which, in this State by reason of the magnitude of the interests involved, are as important as any other class of liens, this act presents the very serious objection of opening the way for foreclosure practically without notice. By using the very flexible term "Public Places" a public road running through a sparsely settled section far distant from the county seat would be a public place, as would also any other place upon a public highway, even though far remote from the county seat and far from the place where the mortgaged property is situated. It will be noticed that the act only requires that the notice shall be posted in three public places in the county, and does not require that they shall be posted in the immediate vicinity of the property to be sold; under this act such notice can be posted in the extreme northern part of the county, where the property as a matter of fact is located and to be sold in the extreme southern portion of the county. In a State where the counties are as large as in Wyoming such a provision cannot be otherwise than objectionable. Under the terms of the act the mailing of notice to the mortgagor may be deferred until such a time as will defeat the very object of the requirement for a mailed notice. These things may be done and the very letter of the proposed law be complied with. The act does not require that the mailed notice shall be given to the mortgagor any particular length of time before the foreclosure.

Very Respectfully
Amos N Barber
Acting Governor.

The question now being, "Shall S.E.A. No. 12. become a law, the objections of the Executive to the contrary notwithstanding," and the ayes and nays on-

The question being taken, resulted as follows:

Ayes – None.

Nays – Messrs Chamberlain, Chatterton, Edward, Fitch, Kabis, Kennan, Mary, McCormick, McGill, Mondell, Robbins, Russell, Riddle, Williams, Woodruff Mr President – 16.

Executive Department. State of Wyoming. Cheyenne, Wyo. January 6. 1890.

Hon. President of the Senate. Sir: I have the honor to return herewith without my approval, Senate Enrolled Act No. 14 entitled "An Act to protect proprietors of hotels, saw'd, boarding houses and lodging-houses." This is an act which will be administered by the courts of justices of the peace, officers who as a general rule enter upon their official duties without any previous preparation by study of the laws; hence the very great importance that the law should be definite, certain and unequivocal in its terms.

The object of this act appears to be to afford a certain class of business men, therein named, a special remedy against delinquent debtors in addition to the special remedies generally accorded under the present laws, by permitting the attachment of wages due the debtor for the recovery of debts for board or lodging or both, regardless of the general exemptions accorded the debtor by the statutes.

The objection to this act is in its ambiguity. The amount which may be attached cannot be determined with certainty from its terms. It may be construed to mean four weeks wages due the boarder, which may be a considerable amount, or it may be construed to mean the amount of four weeks board or lodging, or both, due the attaching creditor, which may be a small amount. The act is otherwise ambiguous, and instead of pointing out clearly the rights and remedies of the creditor, is uncertain as to both.

Very Respectfully,

Amos W. W. Barber.

Acting Governor.

The following report was received.

Senate Chamber,
Cheyenne, Wyo. Jan 6. 1891

Hon. President
of the Senate:

Sir. I have the honor to inform you that I am in receipt of telegraphic requests for arms, and munition of troops from every town in the northern and north-western part of this State, for the purpose of protection against threatened

Indian outbreaks.

I have heretofore shipped arms and ammunition to two or three points, being all on hand available, but the demand for protection, has within the past day or two become so urgent that I now deem it my duty to present the matter to your honorable body for such legislative action as you may deem proper.

Should the gravity of the situation become such as to make it the duty of the Executive to order the militia of the State to proceed to the scene of the threatened hostilities, means to provide for transportation and subsistence of troops, would be imperatively necessary.

I would, therefore, suggest that an appropriation of at least five thousand dollars be made to meet such possible contingency.

Very respectfully,

Amos C. Barber,

Acting Governor.

House of Representatives
Cheyenne Wyo Jany 8. 1891.

Hon President of the Senate.

Sir. I have the honor to inform your Honorable Body that further consideration of Senate File No 44 was indefinitely postponed by the House. this day. and said Senate File is herewith respectfully returned to your Honorable Body

Respectfully
L.S. Bartlett
Chief Clerk.

The following report was received:

Cheyenne, Wyo. Jan. 8. 1891.

To the Members of the Senate and House of Representatives.
of the First State Legislature,
of the State of Wyoming.

Gentlemen:

Your committee selected in accordance

with the provisions of Sec 6 of Chapter 54 of the Session Laws of '88 to examine the accounts and records of the State Auditor and State Treasurer from November 10th, 1890 to January 8th 1891 (the date of this examination), and report the result of such examination to each house of the First State Legislature, with such explanations and recommendations as we may deem necessary beg leave to submit the following, our report:

Our examination has been critically and carefully made, explanations have been demanded and required in all instances where they seemed to be essential to obtain an understanding of the business transactions in the respective offices, and this information has been cheerfully and fully given to your committee; & as a result of such we are fully advised upon the several subjects embraced in this report.

First- The Treasurers Office.

The Treasurers books, accounts, vouchers and receipts have been carefully checked, footed and examined and compared in detail with corresponding transactions in the office. They have been found correct in every particular.

No money has been paid out except upon duly executed warrants, and where balances were contained in the appropriation to pay the same.

The Treasurers Books show on January 8th 1891. a total cash balance on hand of $195-515.94 This amount we found in the Treasurers hands and correctly apportioned in the following funds.

General Fund	$ 142,066.77
Capitol Building Fund	4,754.83
Penitentiary Building Fund	1,814.88
Poor Asylum Fund	549.72
Stock Indemnity Fund	7,047.02
State Bond Tax	16,105.14
Insane Asylum Tax	5,850.47
University Tax	13,962.96
Capitol Tax	3,365.16

Second — The Auditor's office The Auditor's Books, accounts, vouchers, bills and receipts have also been carefully checked, footed and examined and were found correct in all instances.

No warrants or certificates of indebtedness have been drawn without a corresponding voucher and so far as your committee could ascertain neither have been issued without proper authority by law.

The balance of cash as shown by the auditors books on January 8-1891. is $113 444.95- The difference in cash between the Auditors and Treasurers accounts is occasioned by the following causes. First - There warrants issued and not yet presented to the Treasurer for payment.

Second- Treasurers duplicate receipts issued to various counties have not yet been returned to the Auditor under the law just passed by the Legislature, mandatorying the former to issue his receipt in triplicate, this difficulty will in the future be obviated.

Capitol Building Fund.

He found that there is now in the Capitol building fund a ballance of $4.73-4.83. Of this amount but $45.68 is subject to use by the Capitol building commission. This leaves a balance of $4.709.18 in said fund and your committee recommend that the above amount be covered in to the general fund of the state.

Publishing Reports of Auditor and Treasurer.

In making our examination, your committee have become convinced that at least the Auditor's and Treasurer's reports should be published prior to the convening of each Legislative Assembly and a copy furnished each member thereof. This could not but result in more intelligent legislation on the fiscal affairs of the State, and we would respectfully recommend a small appropriation for this purpose.

Respectfully Submitted.
Robert E. Fitch.
Chairman.
J. F. Dunn.
Secretary.
R. H. Hall

The following communications were received from His Excellency the Acting Governor:

Execution department,

State of Wyoming,

Cheyenne, Wyo. January 10, 1891.

Honorable President

of the Senate:

Sir:-

I have the honor to return herewith, without my approval Senate Enrolled Act No. 26 entitled "An act entitled an act securing to laborers a lien for wages".

By its terms this act has to do with two parties, and only two — the employer supposed to be the debtor, and the employee supposed to be the creditor. It appears to be for the benefit and protection of but one person, the employee. So far as it effects the employer, for the purposes of this message, I have no objections to offer. If the employer is indebted to the employee the debt should be paid; and if payment is refused the wage earner should be afforded an adequate remedy at law. There is, however, another class of citizens whose interests are materially affected by the provisions of this act, and whose rights are as sacred and entitled to as much protection as those of the employer, and, indeed, because of the

peculiar circumstances surrounding, it is right that it should be, and it has always been the policy of the law to extend special and peculiar protection to innocent third parties. The rights of innocent purchasers without notice should not be ignored, as they certainly are in the provisions of this act.

The act goes to nearly all classes of labor and applies to every class of property — as well as to the merchandise in the store of the merchant as to the cattle on the range. The proposed law creates a lien which does not merely operate from and after notice by filing a statement of such lien, but upon such filing, relates back over a period of six months and to an amount of not exceeding two hundred and fifty dollars. For the protection of that class whose interests are so materially affected as those of the wage earner — the innocent purchaser for value, them are not provided any opportunities of notice; for the lien may not be filed until after three months, and then relates back over perhaps a half year. Thus, under the provisions of this bill the herder may deprive the family of the laborer of the family cow purchased from his scanty earnings; the clerk might deprive the mechanic of the tools of his trade, or his family of the household furniture. And all these things might have been purchased in good faith and utter ignorance of the wage earner's claim. Under this act there could be no stability in titles; and in endeavoring to right the wrongs of one class, the legislature would have grievously wronged another and yet larger class of our citizens.

Very Respectfully
Amos W. Barber
Acting Governor.

Executive Department,
State of Wyoming,
Cheyenne, Wyo. January 10, 1890

To the Honorable Senate

State of Wyoming.

Gentlemen:-

I have the honor to return herewith without my approval Senate Enrolled Act No. 44, entitled "An act to amend and reenact Sections thirty-four hundred and thirty-two and thirty-four hundred and thirty-three of Chapter two of Title forty-one of the Revised Statutes of Wyoming."

This is an act referring to procedure in justice's courts, and is directed to the matter of pleadings therein. It abolishes the present right of verbal pleadings and necessitates the preparation and verification of written pleadings, as is now required in higher courts.

Matters of litigation in justice's courts are generally of minor importance, measured by amounts involved, and many of the formalities deemed necessary to protect the greater interests involved in the higher courts are then omitted for the purpose of simplifying, as far as may be, the procedure necessary to protect the rights of parties. In minor matters the litigants may well present their own cases, and quickly and with small expense bring their matters of difference to a determination; and in fact the majority of cases tried in justices courts are determined at places remote from the County seat and where it is impossible to obtain the assistance of an attorney and therefore the formalities and difficulties of such procedure should not be increased.

The act now under consideration requires formalities which if attempted by the litigants, may involve them in confusing technicalities, which will tend to prolong rather than terminate litigation. If entrusted to practitioners of the law it becomes a matter of expense beyond the means of the litigant perhaps, and certainly out of proportion to the interests involved. However poor the litigant, and however small the interests involved, the law should accord protection and justice; but the tendency of this act is to defeat this by placing it beyond the means of affected parties

Very Respectfully
Alvord W. Barber
Acting Governor.
